

# Amazon FBA Packaging Checklist

## Basic Requirements

- Use a rigid box with flaps intact
- Remove all old shipping labels or markings if you are reusing boxes
- Wrap all items separately
- Use adequate packaging material
- Use strong tape designed for shipping
- Do not use string or paper over-wrap
- Use a single address label that has clear, complete delivery and return information
- Use two inches of cushioning between each of your items and the inside of the box.
- Do not use point-of-sale containers or pallet-sized boxes (also known as "gaylords")
- Do not bundle multiple boxes together
- Scannable barcodes must be covered or removed when reusing a retail box to ship different products (for example, a large printer box to ship smaller media products).

## Acceptable Boxes

- Regular slotted carton (RSC)
- B flute
- ECT-32 (edge crush test)
- 200 lb./sq.inch (burst strength)

## Acceptable Packing Materials

- Bubble Wrap
- Polyethylene Foam Sheeting
- Full sheets of paper (heavy-weight kraft paper is best)
- Inflatable Air Pillows (can lose pressure in low temps and high altitudes)
- NO: packing peanuts, foam strips, crinkle wrap, shredded paper
